DRIFT OPEN - the bad luck finished

Podium during the last Drift Open round in Torun is proof that both Karolina and her car they are in very good condition. Karolina ranked on third place on the podium in the highest Masters class.

"There were extremely difficult conditions. Saturday's qualifications we had in rain and Sunday was very hot. My determination was huge and the team did great in the extreme situation and the car, despite minor issues, didn't fail. The 1st place was very close, but third place

it's also a huge success for me," concluded ours Champion. For Karolina, this weekend was also important for another reason. It turns out that by promoting motorsport and by showing her passion to others, it has a real impact on people.

"A couple of people came to see me over the weekend thanking me for the support and strength I give not only to women. I remember one girl the most - she said, when she had a big problems in her life, thanks my strength, she made the decision to move out to other city.

In a new place she risked and went to the biggest vulcanization and said she want to work for them and they.. took her!! It was something big for me :)"

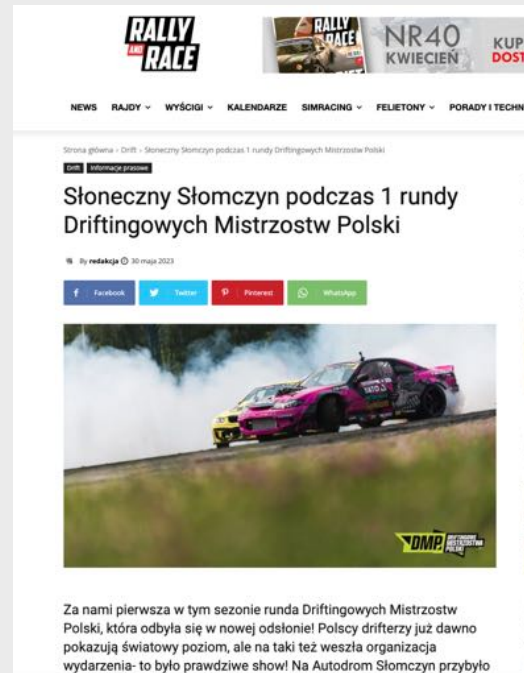

such news must give wings, that's for sure.

Polish Drifting Championship

The first round of Polish Drifting Championship is also behind us, which are in a new version from this year!

Polish drifters for a long time presented the highest level, but from this year - the level of the organization of the competition is on a world class - it was a huge show! Over 40 PRO and SEMIPRO crews came to Słomczyn and over 10.000 spectators.

Numerous attractions attracted a lot of spectators. A good weather and beautiful sun also helped in this subject.

As commentators and judges admitted, the competitions of both classes, especially PRO, were held at a master level - it shouldn't be a surprise - most of the drivers are Poland and European Champions.

The PRO classes TOP16 was live in Eleven Sports. Let's hope drifting for good will be on TV!

Karolina Pilarczyk finished in the top 10 drivers of the PRO class - ranked 9th overall.

"This competition was very good for me. To be among the top 10 domestic drivers is a positive sign for the future. We will fight for the higher position.

I always say that I preferred to climb on the highest positions than to defend current position" - Karolina laughs, satisfied with her performance in Słomczyn..

Kobieta jak wino...

Mówi się o mężczyznach, że są jak wino, im starsi tym ciekawsi, ale to samo można powiedzieć o wielu kobietach. Na przykład o niej: Karolina Pilarczyk – podwójna Mistrzyni Europy w driftingu, ikona motorsportu. Choć wydaje się, że w motorsporcie, typowo męskim świecie, kobiety aby odnieść sukces muszą „wtopić się” niejako w środowisko – jej ta zasada nie dotyczy. Karolina z

Must be good

"Must be good" is the name of the foundation whose purpose is to support material and mental problems of Ukrainian refugees.

The Foundation invited another organization to cooperation - "Everyone has its own storm", with which they organize a joint project training, recreational and even sailing camps for Ukrainian children. Sailing together and other water attractions evoke on children's faces a sincere smile.

Children had the opportunity to meet also famous people - among others: Karolina Pilarczyk – an icon of the Polish drifting and her team manager Mariusz Dziurleja, who talked about their passion, love for drifting and achieving big goals in small steps.

"It is a great honor for us to be able to help and support these kids. Paradoxically many of them experienced in their short life more stress than both of us together..

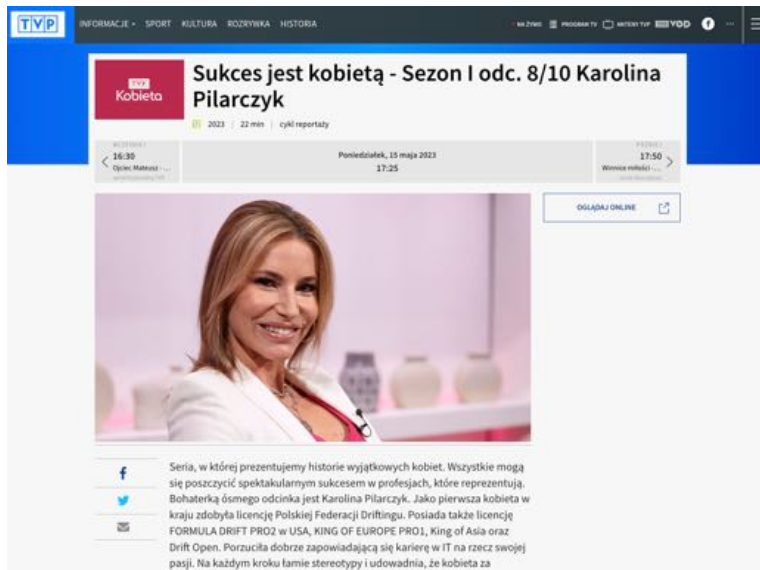

Being able to make them to forget this bad things for a moment is a huge thing. Motorsport is so exciting that everyone smile while we are telling about it.

Our world is fun and very colorful, so at least we want to take those kids for a moment to our world and to make them forget all the bad things that happened to them. "

said Karolina. The report from the visit will be in the breakfast TV.

When the schedule is so tight that there is no time to change styling between one activity and the other, many ladies have a dilemma ... but not her :)

For Karolina, the support of friends is more important as the outfit, so for the event organized by Dr. Maciej Panek, a friend of hers, she came... straight from track ... in the racing suit. The unusual styling was very much appreciated by both guests and the media. There is no hopeless situation for Karolina !

Animals always can count on her !

Despite a very busy schedule, they will always find time for them. Karolina in her social media channels, between showing her activities, she constantly shows her fans dogs, that are waiting for adoption. Thanks to these actions, doggies are finding loving homes!
